

Client Questions that were asked during meetings we had

Meeting date: September 27th, 2022

Meeting Time: 10:00am

Meeting Duration: 30 Minutes

Meeting Questions: Listed below

What is the proposed software engineering project?

What is the objective of this project?

What is desired outcome of this project?

Are there any potential security concerns of us accessing the system/computers?

If there are any security concerns how can we insure nothing would happen? suggestions: NDA, other documents, possible employment without pay.

What about time? How long will this take?

Meeting date: September 30th, 2022

Meeting Time: 12:00pm - 1:00pm

Meeting Duration: 1hr Minutes

Meeting Questions: Listed below

Current organization and systems being used

Questions to identify different types of requirements

- Functional Requirements
 - What will the system do
 - The software will work with RMM Tactical to automatically update software on end users computers ..
 - When will the system do it?
 - Overnight is Preferred so Workday is not disturbed
 - What type of computations and data transformations?
 - (READ/WRITE files, os.walk directories)
